Vodacom's submission in response to the Discussion Document regarding "the use and licensing of the band 57-66 GHz (V band) and the band 71-76 GHz paired with the band 81-86 GHz (E band)"

Dear Chairperson

Please find herewith Vodacom's submission in response to the request for comments by the Independent Communications Authority of South Africa ("ICASA / the Authority") on the Discussion Document.

Vodacom trusts that the Authority will find Vodacom's response beneficial toward finalising the parameters for the use of the V and E bands.

Vodacom would like an opportunity to make an oral representation should the Authority decide to convene a public hearing.

Yours sincerely

Dr Andrew Barendse
